

Scott M. Ellis Elementary School

Greenville CSD - where everyone Learns, Teaches, Belongs! Spartan STRONG!

December 6, 2018

Dear Families,

It is hard to believe that it is December already! Students have had many exciting opportunities during the past two weeks. Last week, our fifth graders spent a week at Nature's Classroom in Becket, MA. They enjoyed lots of team building opportunities while learning about themselves, one another and the world around them! It has been fun to hear them talk about their favorite parts of the experience. Students learned about the physics behind a trebuchet catapult and bridge construction, recycling and the importance of conserving resources, and participated in a simulation of traveling on the Oregon Trail.

Third graders also enjoyed enrichment activities last week with special presentations that were connected to their study of Native Americans. Students learned how lacrosse sticks were made and created their own corn husk dolls.

This week students are in superhero training during physical education classes. Boys and girls are working to improve their power, speed, and agility by going through a multi-station obstacle course.

Please remember to send your children to school dressed for the weather, and label all of their winter clothing so we can return lost items to their owners.

Sincerely,

Erin DuBois
Interim Principal
