Robotics

Congratulations to our Robotics club as they made a very strong showing at the FTC Robotics Hudson Valley qualification meet sponsored by PACE university. Competition was tough and our team made it to the championship round after five matches. Overall, they placed 11th out of the 22 teams from all over the Hudson Valley region. This is an amazing accomplishment as we were one of only two rookie teams to make it to the finals at this event.

Our team also brought home the "Motivate" award given to the team that clearly demonstrates what it means to be a Team. This award given by a panel of judges, celebrates the Team that exemplifies the essence of the FIRST Tech Challenge competition through Team building, Team spirit and exhibited enthusiasm.

The Greenville school community and administrative team wishes Genevieve the very best.
