The Spartan STRONG trait of the month for April is Grow Together! Take a moment to reflect on this year. Think about all of the knowledge you have gained and skills you have mastered. Think about the friends new and old that you have cultivated. You have already come a long way, but there is still a full quarter left. What do you need to focus on improving for the remainder of the year? Who can you seek out, a teacher, classmate or family member, to help you along the way? Consider these questions as you continue to push yourself and your peers to finish the year off Spartan STRONG!
