

## **Greenville Central School SAFETY DRILL**

We have to have 3 drills every year to practice bus evacuation.

1. Within the first seven days of school
2. Between Nov 1 and Dec 31
3. Between March 1 and April 30

Students will learn the proper way to evacuate a bus, how to use the emergency exits, and go over the bus safety rules. The bus driver conducts the drills with assistance from the students.

- All buses will be parked either at the Elm school or the MS/HS after loading all students in the afternoon
- All students will exit out the rear emergency door, **quietly**, with direction from the driver or helper. They will sit and slide out the door with the help of an older student.
- Students should be quiet, stay in line while waiting to re-enter the bus
- When all students have re-entered their bus and the school yard is clear, we will leave

We will be running about 10 mins late on this day.
